

What is Going on At Fort McCoy.

Rev. Z. A. Crumpton, of Fellowship, has been called to the Baptist church at this place for the ensuing association year.

Mrs. Noah Ergles, who lived a few miles northwest of here, died suddenly last week. She was in good health, apparently, up to a few minutes before she fell dead. She had picked three hundred pounds of seed cotton the week before her death, and was up until midnight singing cheerful. She retired at 12 o'clock, and aroused her husband by falling to the floor with a lamp in her hand, which was broken. When Mr. Ergles got her she was dying.

The public school was opened last Monday under very favorable auspices by W. L. Colbert.

A. P. Geiger, of Marshville, has moved his family to Ocala, that his children may have the benefit of the school facilities.

Miss Anna Wells, of this place, opened Mill Creek school Monday with a good enrollment.

Master Emanuel Martin returned home from Stetson University a few days ago.

The weather has somewhat cleared up to the joy of the farmers who have much cotton to pick. The crop has been cut off considerably by too much rain, and what is open in the fields is badly stained.

Miss Ida Payne has contracted to teach the Eureka school for the term.

Capt. Chas. Thomas, of Pine, was here last week looking after steers for the Cuban market.

Mrs. G. A. Thomas was taken very sick last week and Dr. Lindner, of Anthony, was sent for.

F. A. Lang & Son are experiencing considerable trouble, as the river is so high that they cannot get the wagons to their warehouse, and are compelled to haul their spirits and rosin to Eureka.

J. S. Graham will leave soon for Arcadia, where he will be engaged as an expert orange packer for this season.

D. B. Brinson, John Hering and a man by the name of Counts engaged in a fistfight last Thursday, which resulted in Hering getting considerably the worst of it.

Mr. and Mrs. D. F. Simmons, of Turner Farm, were visiting relatives here last Sunday.

Mrs. Cora Dinkins, of Montague, is visiting her parents at this place.

Stepped Into Live Coals.

"When a child I burned my foot frightfully," writes W. H. Eads, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Bucklen's Arnica Salve wholly cured me after everything else failed." Infallible for burns, scalds, cuts, sores, bruises and piles. Sold by Anti-Monopoly Drug Store.

Improvement and Progress the Word at Summerfield.

W. J. Ellis & Bro., arrived Sunday with fifty hands to put up a large saw mill near Summerfield, on the Lake Weir branch of the Seaboard Air Line railroad. Ellis & Bro., have bought fourteen thousand acres of timber land here, and moved their mill from Kirkland, Ga., to this place.

W. S. West is cutting 50,000 to 60,000 feet per day; Ellis & Bro., east of town, will cut 20,000 feet per day.

Dr. W. V. Newsom, of Ocala, is bringing in machinery to put up a moss factory, grist mill and cotton gin and expects to have it working soon.

Mrs. S. N. Dillard's father is visiting her, and expects to remain some time. He is in his eighty-fifth year, but is hale and hearty for a man of his age.

Doctor Newsom and family, of Ocala, visited in town, and remained for several days.

Cotton picking, gathering corn and hay is occupying the farmer's attention now. Much rain during the last week or so has damaged cotton somewhat.

Fall gardens have been planted and are looking well.

Mrs. Henning's and Doctor Newsom's orange groves look like old times again. Both groves have a good many oranges.

The Best Prescription for Malaria.

Chills and fever is a bottle of Grove's Tasteless Chill Tonic. It is simply iron and quinine in a tasteless form. No cure—no pay. Price 20c.

How Irish Potatoes Harvested in Spring May be Preserved.

Press bulletin No. 8, under the date September 15, 1901, has been issued from the Florida experiment station, department of agriculture, relating to the care of Irish potatoes harvested in the spring and held for fall planting. The bulletin is as follows:

"There having been a great number of inquiries as to the keeping of Irish potatoes from the spring crop for fall planting, it seems advisable to give the experience of the Florida experiment station in the form of a press bulletin, so that it may reach the farmers in general. Before giving the method employed at the station with unfailing success, it does not seem inexpedient to call attention to some of the other methods tried and the difficulties of each.

Storing the potatoes in oat straw proved a failure on account of the tendency of the potatoes to decay.

"Spreading the potatoes on a board floor was unsuccessful, as the potatoes turned green and shriveled, being then unfit for either shipping or planting.

"On trying a mixture of lime and dry sand, in the proportion of one pint of lime to a bushel of sand, it was found that, while the potatoes did not decay, they were no longer viable, the lime apparently killing the eyes and thereby preventing them from sprouting successfully. Dry sand alone produced better results.

"The method that has proven uniformly successful at the station has been to take a salt crate, place a layer of pine straw in the bottom, then a layer of potatoes, covering them with a layer of pine straw, and continue the process until the crate is filled. Finally the crate is covered with a layer of pine straw and stored in the barn without further attention. On taking the potatoes out in the fall they have been found to be sound and fresh in appearance, and there has been no difficulty as to their sprouting when planted.

"Fall planting at the station has just been completed. The potatoes cared for as above described were in prime condition; in fact, they were as good as, if not better than, seed potatoes shipped from the north. The variety of potato that has been used with the greatest success at the station is No. 4 Rose, it never having been affected with black heart here. As regards the yield, out of sixty-seven varieties planted in the experiment, it proved the most prolific.

"J. F. MITCHELL,
"Farm Superintendent."

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

From the Ocala Evening Star of April 1st, 1901.

"We are indebted to Mr. George Close for the finest cabbage and lettuce we have ever seen grown in Florida. Mr. Close is a man of fine judgment, and one of the most successful truckers in the state and he is a generous and large hearted as he is prosperous."

Mr. Close bought his seed from the old reliable seedman J. B. Sutton, who handles only the best seeds to be had especially adapted to Florida and makes a specialty of the finest strains of cabbage, egg plant, lettuce, onion and tomato seed. See display advertisement in another column. 7-121f

A Poor Millionaire

It is earnestly requested that all pupils will be entered as near the beginning of the school term as possible. For full particulars address Miss Annie M. Sharpe, postoffice box 532, Ocala, Florida. 913td

Let it Alone.

Scott's Emulsion is not a good medicine for fat folks. We have never tried giving it to a real fat person. We don't dare. You see Scott's Emulsion builds new flesh. Fat people don't want it. Strong people don't need it.

But if you are thin Scott's Emulsion is the medicine for you. It doesn't tire you out. There is no strain. The work is all natural and easy. You just take the medicine and that's all there is to it.

The next thing you know you feel better—you eat better—and you weigh more. It is a quiet worker.

SCOTT & BOWNE, Chemists, 409 Pearl St., N. Y. 50c and \$1.00; all druggists.

Early Choosers Fare Best

Man's Comfort.

It isn't to be supposed that we would overlook the important matter of shirts for men. Here are some beautiful pieces—madras, fine ginghams, chevrons—what you will, with handsome color effects in almost any shade you may desire. And the prices are worth considering, too.

Protecting. Beautifying.

It isn't too late to buy a parasol; there is plenty of sunny, hot weather still to come, and plenty of reason for buying just now. The solid worth of these parasols will surely make you happy in purchasing one. Some silk, some cotton—all beautiful and all with fast colors.

For Fall Waists.

We are already showing some of the heavier goods for fall—some beautiful pieces for waists of heavy silk and light flannel. They are in solid colors or figured, as you may choose, and you have your choice of the most popular patterns at popular prices among the early buyers and get your choice.

WE EAT MEAT

To grow strong. Unless we get good meat we may as well let it alone. There is no strength in tough meat—instead of giving, it takes strength to digest it. It pays to be careful in buying meat—be sure to get the best—tender and choice. Pay a little more if need be and put something in your stomach which will put flesh on your bones and strong blood in your heart.
